The Trust is domiciled in New Zealand and was registered as a Charitable Entity under the Charities Act 2005 on 16 August 2007.

For purposes of complying with NZ GAAP, the Trust is a public benefit not-for-profit entity and is eligible to apply Tier 2 Not-for-Profit PBE IPSAS on the basis that it does not have public accountability and it is not defined as large.

2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Trust and revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. The following specific recognition criteria must be met before revenue is recognised

Rental income

Rental income is recognised in the surplus or deficit on a straight line basis over the term of the lease.

Interest Income

Interest income is accrued on a timely basis by reference to the principal outstanding and at the effective interest rate rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's carrying amount.

Distribution income from equity investments is recognised when the Trust's right to receive payment has been established.

Bequests and Legacies

Bequest income is only recognised when cash is received or donated assets come under the control of the Trust and can be reliably measured. The Trustees have adopted this policy on the basis that until cash is received or donated assets come under control of the Trust, the bequest can be contested by other estate claimants i.e. the economic benefits to the Trust are not probable and income should not be recognised.

2.4 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand, cash in banks and investments which mature within 90 days. Bank overdrafts if any, are shown within current liabilities in the Statement of Financial Position.

2.5 Goods and Services Tax

All items in the Statement of Financial Position are stated exclusive of GST, with the exception of receivables and payables, which include GST. All items in the Statement of Comprehensive Revenue and Expenses are stated exclusive of GST. Non-recoverable GST is reported as an operating expense.

3. INVESTMENT PROPERTY

Initially investment properties and properties held for sale are measured at cost including transaction costs. Subsequent to initial recognition investment properties and properties held for sale are stated at fair value. Gains and losses arising from changes in the fair values of investment properties and properties held for sale are included in the surplus or deficit the year in which they arise.

External, independent valuers, having appropriate recognised professional qualifications and recent experience in the location and category of property being valued, value the Trust's investment property portfolio every 12 months. The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arms length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

Investment properties and properties held for sale are derecognised when they have either been disposed of or when the investment property and property held for sale is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the derecognition of an investment property or property held for sale are recognised in the surplus or deficit in the year of derecognition.

The following schedule discloses the revaluations of the Investment Properties as at 30 September 2019 and the additions and disposals during the year.

4. INVESTMENTS

Investments are classified as available for sale financial asset. These assets are initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, investments are measured at fair value.

Fair value is determined based on the quoted prices of the underlying investments at balance date. Changes in the fair value of investments, other than impairment losses, are recognised in other comprehensive revenue and expense and accumulated in the investment revaluation reserve in equity. When investments are derecognised on sale, the gain or loss accumulated in equity is reclassified to surplus or deficit. This is presented as a realised gain or loss on sale of investments. Transactions are based on trade date where purchase or sale of an investment is under a contract.

Investments are stated at fair value as at 30 September 2019 which are the quoted prices of the underlying managed funds at balance date.
